

NEWS LETTER April 2011

CONDITION MONITORING - DISMOUNTING - MOUNTING - ALIGNMENT - HYDRAULIC TOOLS

WHAT A SHOW!

On behalf of the Bega Team: thanks for visiting us in Hannover! We had a great week, greeting many familiar customers from all over the world. In total we welcomed more than 50 different nationalities.

Being at the fair, 5 days from 09.00 to 18.00 always feels like a marathon! There is always something happening and we enjoy hearing (business) stories from all over the world. All the team members agree it is a stimulating week, working at top international level.

INTRODUCING OUR NEW CATALOGUES!

The novelties we introduced at the Hannover Messe included:

[Betex HXPM 100 t puller](#)

[Betex MF Quick heater](#)

[Betex Hydraulic Power](#)

We were particularly proud to introduce 2 brand new catalogues!

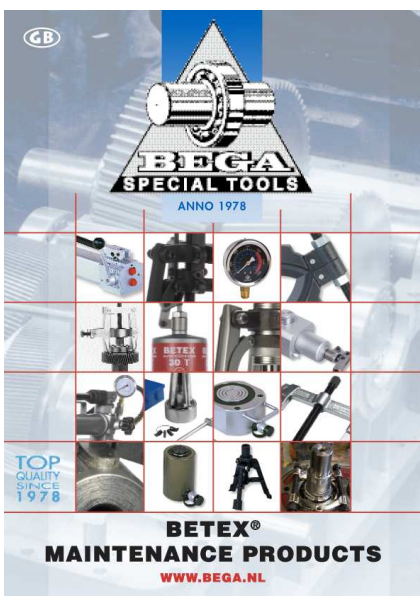

You can expect a hard copy on your desk in May. In the mean time, why not download and view the catalogues online using one of the following links!

NEW! BETEX MAINTENANCE PRODUCTS CATALOGUE

Take a look at our new 76 page catalogue for [Betex Maintenance Products](#). It features Betex tools for

- Condition Monitoring
- Mounting & Alignment
- Dismounting
- Hydraulic Equipment
- Lubrication.

NEW! BETEX INDUCTION HEATER CATALOGUE

Our new 34 page [Induction heater catalog](#) clearly explains the advantages of using induction heating as proper mounting method. It contains all Standard and Turbo models, from 3.6 kVA up to 100 kVA.

The catalogue also includes:

- Special projects with customised heaters for the Railway, Wind energy and Machine building industries
- A Middel frequency heater for both mounting and dismounting
