- This newsletter is aimed to explain the most important (technical) changes:

BETEX PORTABLE AND BENCH-TOP MODELS

First, we modernised the Electronic Unit in these 4 models, then we retested the heaters.

We stretched their performance to the absolute max. to prove what our machines are capable of.

These are the consequences:

1. **Revised technical specs.**
2. **New name with added "i" for "improved"**
3. **New label on heater with BETEX branding**

BETEX 22 ELD/ portable
